## SITE LIGHTING

Welcome to the new TAMCO Site Lighting guide, which showcases our comprehensive range of LED site lighting and accessories.

TAMCO, part of the TamLite group who have a long history and reputation for providing high quality lighting across a variety of applications, now has its own range of site lighting and accessories to cater for the industrial and construction sector.

### LIGHTS POWER ACTION.

All TAMCO products are tested to the relevant European Standards and built to withstand the harsh and tough building site environments. TAMCO solutions not only provide the power and light required on a work site, but will also ensure the safety of workers.

TAMCO's Site Lighting products are all manufactured with the latest LED technology, providing the user with the expected reliability and luminaire lifespan.

The TAMCO Site Lighting range also includes lighting transformers, cable reels, extension leads, adaptors and much more.

# TRANSFORMER

IP44

2 YR

TAMCO's 110V Transformers provide ample power for on-site safety. Options include a 1.5kVA and 3.3kVA version, each providing a maximum of two power outlets. Both options provide the power to run various corded hand tools and site lighting products, and are supplied with a 1.5m cable.

Supplied with 2 x 16A 2 pin and earth sockets

Choice of 1.5kVA or 3.3kVA

Fitted with with 1.5m of cable and 240V 13A plug

CODE	DESCRIPTION	INPUT	OUTPUT	POWER RATING	
TST15	1.5kVA 110V portable tool transformer	230V - 50/60Hz	2 x 110V C.T.E	Max 1.5kVA	Continuous 0.75kVA
TST33	3.3kVA 110V portable tool transformer	230V - 50/60Hz	2 x 110V C.T.E	Max 3.3kVA	Continuous 1.65kVA

# POWER SPLITTER & CABLE EXTENSION

IP44

2 YR

TAMCO's Power Splitter is an efficient solution for running multiple power tools, splitting a single line input to four separate outputs. Durability on-site is ensured with IP44 sockets and a steel exterior, with the convenience of a carry handle and a 3m cable reel. A cable splitter is also available as a separate 3-way option without a cable reel.

CODE	DESCRIPTION
TSER25M15	25m 110V 16A extension reel with 1.5mm dia. cable
TSER50M15	50m 110V 16A extension reel with 1.5mm dia. cable
TSEL14M15	14m 110V 16A site cable extension 1.5mm dia.
TSEL14M25	14m 110V 16A site cable extension 2.5mm dia.

CODE	DESCRIPTION
TSES3WAY	3-way 110V 16A site cable splitter
TSPS416	4-way 110V 16A power splitter
